“We should not have to resort to this to secure our cars”

Home Security starts with the Garage Door

Looking for a way to improve the level of security around your home?

Every home should have a working garage door, this is highly crucial to ensure the safety of your car as well as items kept in your garage. The typical Australian garage is not only used to house a car but also acts as a storage area for most Australian families. In the event of a broken or damaged garage door, we can repair, service or replace your garage door and/or automatic opener.

- 1 **Roller Garage Door** - This is perfect for sheds or rear openings of your garage, and can be opened with the help of a remote control.
- 2 **Sectional Garage Door** - This can be used for single or double garage areas. It opens upward and under the ceiling area of the garage.
- 3 **Sliding Gate** - This is ideal where swing room is limited and is suitable for extra wide driveways and can be opened with the help of a remote control.
- 4 **For Additional Security** you can add a **Digital Keypad** to open your Gate and your Garage Door.

Here are some reasons why you should consider purchasing your Garage Door through Quokka Garage Doors;

- We supply a wide range of Sectional Doors: including Colorbond, Timber look-a-like, Real Western Red Cedar Custom Aluminium Sectional Doors and Cyclonic rated doors, as well as Domestic and Industrial Roller Doors.
- There are 22 standard Colorbond colours to choose from for the Sectional Doors & 22 standard Colorbond colours for Roller doors.
- The Colorbond Sectional Door profiles include Pressed Panel, Ribline, Finline and Flatline .6 gauge, Ranch and Heritage.
- There are also 5 window styles to choose from.
- All Sectional Doors have galvanised fittings. They also have bearing wheels for smoother and quieter operation.
- We use highly skilled technicians.

All our Garage Doors are manufactured here in Perth WA, so quality is guaranteed. We also provide FREE Garage Door measure & quotes (also off building plans).
